

BENZENE

ACTION FOCUS CAMPAIGN

IMPORTANT INFORMATION

- 1** Have the Operator demonstrate that **the workplace is well ventilated** (to measure = to know) and **work is being performed upwind**.
- 2** Position a vacuum unit **as far away as possible** and ensure measurements are conducted at the actual work location.
- 3** Perform **the control measures** as specified in the work permit and check status regularly (undertake a Last Minute Risk Analysis).
- 4** **Use the correct PPE** and have it cleaned properly if it becomes contaminated.
- 5** Maintain **good personal hygiene** to prevent contamination.

QUESTIONS? MORE INFORMATION? UNSAFE WORKING CONDITIONS?
Your HSEQ Manager is there to help answer any questions and ensure a safe working environment for all.

Work safely or do not work at all!
